VANSH

Full Stack MERN Developer

Delhi, India | +91-8595232967 | vansh858688@gmail.com | github.com/Code-sHere

SUMMARY

Full Stack MERN Developer (fresher) who has built three full-stack projects using React.js, TypeScript, Node.js, Express.js, MongoDB, Next.js, and Spring Boot. Experienced in REST API design, authentication and OTP flows, subscription-based access control, and third-party integrations (Firebase, Twilio, Brevo, Razorpay, Cloudinary, Gemini API).

SKILLS

Languages: JavaScript, TypeScript, Java, Python

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, Spring Boot, Spring Security, Laravel, REST API Development, WebSocket

Databases: MongoDB, MongoDB Atlas, MySQL

Auth & Integrations: Firebase Authentication, Clerk, OTP Verification, Twilio (SMS), Brevo (Email), Razorpay, Cloudinary, Gemini API, Strapi CMS

Tools: Git, GitHub, Vercel, Postman, VS Code, IntelliJ IDEA

PROJECTS

Twitter Clone – Full Stack Social Media Platform | *React.js*, *TypeScript*, *Node.js*, *Express.js*, *MongoDB Atlas*, *Firebase*, *Cloudinary*, *Brevo*, *Twilio*, *Razorpay*

- Developed a full-stack Twitter clone with a React.js and TypeScript frontend and a Node.js/Express.js REST API on MongoDB Atlas, deployed on Vercel.
- Implemented Firebase authentication with email OTP (Brevo), phone OTP (Twilio SMS), and a forgot-password flow.
- Built time-based access control restricting mobile logins to a fixed window (10 AM to 1 PM).
- Designed subscription plans with an upgrade flow and Razorpay payments, enforcing tweet-posting limits by active plan.
- Enabled image and audio tweets using Cloudinary for media upload and storage.
- Added multi-language support, theme switching, search across tweets and users, profile management, and notification settings.

AI Recipe Recommendation System (SERVD) | *Next.js*, *React.js*, *Clerk*, *Strapi CMS*, *Gemini API*, *Tailwind CSS*

- Engineered an AI-powered recipe recommendation platform that generates personalized suggestions from user input via the Gemini API.
- Built a responsive UI with React.js, Next.js, and Tailwind CSS, including a pantry management feature with image upload and inventory tracking.
- Implemented secure authentication and account management using Clerk.
- Used Strapi as a headless CMS for content management and dynamic API generation.

Real-Time Chat Application | *Java*, *Spring Boot*, *WebSocket*, *Spring Security*, *MySQL*, *HTML5*, *CSS3*, *JavaScript*

- Developed a real-time chat application supporting private and group messaging with instant delivery.
- Implemented authentication and authorization using Spring Security.
- Used WebSocket for low-latency, bidirectional client communication.
- Designed a responsive interface following the MVC pattern; stored users, messages, and conversation history in MySQL.

EDUCATION

Bachelor of Computer Applications (BCA) – June 2023 to Expected 2027

Master Diploma in Computer Engineering (MDCE) – IICS, Yamuna Vihar, Delhi

Intermediate (CBSE)
